HEAT UNENDURABLE.

Deaths and Prostrations General Throughout Country.

CHICAGO'S LIST OF VICTIMS.

Temperature the Highest Ever Known in New York and Over a Hundred Lives Have Succumbed to the Torrid Waves. Brother of Cardinal Vaughn a Victim at Chicago—Elsewhere.

CHICAGO, Aug. 11.—The continued heat has greatly affected police patrolmen and letter carriers. About 50 of the latter have been compelled to quit work temporarily and two or three may die. Some of the big department stores have during the last few days practically been turned into hospitals. The girl clerks have fainted by the dozens at their counters and hundreds of them have quit work on account of the heat. These have died:

Last week 557 deaths were reported to the department of health, which is the largest record for any week in many years. It is estimated that over 1,000 animals killed by the heat are lying in different parts of the city and the authorities admit that they are unable to remove the animals promptly.

Eminent Man Stricken.

CHICAGO, Aug. 11.—The Very Rev. Pryor Vaughan of London is lying at the point of death at the Auditorium annex. He was overcome by the heat yesterday and is now in a critical condition. He is a brother of Cardinal Vaughan of England and is making a trip around the world for his health.

GREATER NEW YORK.

Ambulance and Patrol Gongs Sounded Throughout the Day.

NEW YORK, Aug. 11.—The number of deaths caused by the heat in greater New York is about 188 and additional victims are being reported hourly.

Advices from towns just beyond the limits of greater New York add many names to the death list. It is now estimated that 188 persons in and around the city died of heat yesterday.

The prostrations are almost innumerable and no accurate statement of them can be made. Ambulances and patrol wagons have been running about all day, the clamor of their gongs becoming a familiar sound. Streetcar horses have dropped in the tracks by scores. Out of door work has been largely suspended and many factories are temporarily closed.

Sunday night was the hottest of the summer, the climax of the present torrid spell, and one of the hottest known in the city for years. Morning brought no relief and at 8 a. m. the thermometer stood five degrees higher than at the same hour Sunday, but as the humidity was less intense than on the preceding day there was less discomfort in the atmosphere. Early in the morning there was but 50 per cent of humidity which is rather below the normal.

Street temperature taken in the shade at a point near the center of the city was 86 at 4 a. m., rose to 97 at 11, to 99 at 1 p. m., to 102 at 4 and at 6 had fallen to 92 and further dropped to 89 at 9 p. m. Suffering has been most intense in the tenement sections, where poor people are unable to get breathing space. In these sections the charitable organizations have had their hands full, many infants and children succumbing to sunstroke.

The hospitals were obliged to call on the police department to aid them in responding to calls as their ambulances could not cope with the number of cases reported. So police patrol wagons were pressed into service to carry heat victims to the hospitals. Many other wagons were used to carry away dead and disabled animals.

At Baltimore.

BALTIMORE, Aug. 11.—The number of fatalities due to the continuance of the

heated term reported yesterday is 12, making a total of 86 together with about 70 prostrations. The highest point reached today was 89 between 11 and 12, a subsequent thunderstorm somewhat alleviated atmospheric conditions.

Two Fatalities.

INDIANAPOLIS, Aug. 11.—There were two deaths in this city yesterday as a result of the intense heat. They were Elmer Thompson of 106 Dougherty street and George Zapp of West Michigan street.

One Hundred and Over.

BOSTON, Aug. 11.—Private thermometers registered as follows yesterday. Amesbury, Mass., 102; Providence, 100; Brockton, Mass., 102; Attleboro, Mass., 100; Manchester, N. H., 102.

CROP CONDITIONS.

Corn Shows Improvement For August. Cotton, Wheat and Oats Have Fallen.

WASHINGTON, Aug. 11.—The report of the statistician of the department of agriculture for August indicates an improvement in the condition in corn over that reported last month of 4.4 points or from 92.4 to 96. The averages of the principal states are:

Ohio, 105; Kentucky, 102; Indiana, 105; Illinois, 106; Iowa, 103; Missouri, 85; Kansas, 109; Nebraska, 108.

The condition of spring wheat has fallen since July report from 93.3 to 78.9, a decline of 14.4 points. The conditions by states are as follows:

Michigan, 83; Illinois, 83; Wisconsin, 82; Minnesota, 80; Iowa, 84; Kansas, 55; Nebraska, 77; South Dakota, 89; North Dakota, 70; Washington, 90; Oregon, 90; California, 109.

The condition of oats has fallen since last reported nine points or from 96.3 to 77.3.

Spring rye condition is 88, against 98.6 in July, while barley has fallen from 88.1 in July to 82.9 for August.

The acreage of buckwheat is given as 99.5 per cent of last year's area, condition same, 96. Condition of Irish potatoes 94.8, against 99 in July. Condition of tobacco 86.5, against 91.5 July 1.

Reports on the European grain crops are generally favorable. The wheat crop promises to be up to the average. Forage crops will be short in Great Britain if drouth continues.

The August returns show a reduction in the condition of cotton during the month of July from 92.5 to 80.1, or 12.4 points. The condition same time last year was 77.9, which was the lowest average for August ever given. The averages of the states are:

Virginia, 86; North Carolina, 96; South Carolina, 88; Georgia, 92; Florida, 84; Alabama, 73; Mississippi, 78; Louisiana, 70; Texas, 69; Arkansas, 65; Tennessee, 89.

Heavy rains in July damaged the crop, especially on bottom lands, in Virginia, North and South Carolina, Florida and some portions of Georgia. Over a large area in Georgia the crop is in fine condition and promises a full yield. A drouth which extended over Alabama, Mississippi, Louisiana, Arkansas and Texas for several weeks, produced more or less damage and in many counties complaints are made of rapid shedding and premature ripening and blooming at the top. Some counties in Mississippi and Arkansas report the crop is irreparably damaged from drouth and excessive heat.

Some counties in Texas report the crop in good condition, fruiting well, promising an average yield. But over the drouth-stricken district, where rain has fallen, they have come too late to be of benefit. The continued drouth and hot dry winds have done considerable damage in some counties. There is complaint of too much dry weather in Tennessee, otherwise the crop is doing fairly well. The crop over almost the entire cotton belt is maturing rapidly and is earlier than for many years, partly from early planting and partly from premature ripening.

SALOONKEEPERS PLEADING.

Alleged Excessive License Fee Heading Off Profits.

TERRE HAUTE, Ind., Aug. 11.—The common council is wrestling with the question of reducing the saloon license fee. Saloon men, in their petition, claim that the hard times and the Nicholson law have made it impossible to pay the fee of \$250 per year and derive any profit. The Good Citizens' league insist that the license shall be maintained and say that they do not care how many are forced out of business; that the city will be none the loser, as the lessened cost of maintaining the police department and jail will more than offset the decrease in revenue paid by the liquor dealers.

The city council has, among other things under consideration, one to reduce the dealers' license \$50 or \$100, and make up the deficit in revenue by taxing the breweries and brewery agencies of the city \$1,000 per annum. To this proposition the Terre Haute Brewing company cheerfully assents. They have the bulk of the local trade and can much better afford to pay the license than any of their outside competitors. There are but four other breweries maintaining agencies here—the Schlitz, the Pabst, the Indianapolis and the Anheuser-Busch.

WARREN, O., Aug. 11.—A cloudburst and windstorm occurred at Middlefield and Bundysburg yesterday. Fences and other property were swept away. The damage is large, but as far as known there was no loss of life.

NEW YORK, Aug. 11.—"Jim" Hall was arrested last night for a debt for board and his fight with Steve O'Donnell was declared off. A large crowd had gathered to witness it.

IMPRESSIVE SCENES.

Total Eclipse of the Sun Observed at Vadsoe, Norway.

LASTED ONE HUNDRED SECONDS.

One of the Events of the Century in Astronomical Circles—Dense Fog Prevailing on the Island of Yezo, Japan, Prevented the American Party From Taking Observations—Only Partially Successful.

LONDON, Aug. 11.—The Times has a dispatch from a correspondent at Vadsoe on Varanger Fiord, near which point observations were taken by Mr. Downing, superintendent of the British nautical almanac and a number of other English astronomers, including Sir Robert Ball of Cambridge.

This correspondent describes the impressive scene of the moon's shadow seeping over the earth at the moment of the totality of the eclipse.

"The view from Dr. Common's observatory," he says, "extended for 30 miles up Varanger Fiord to the mountains opposite. The deep purple shadow plunged the mountains in temporary obscurity. As it advanced across the Fiord, the shadow enveloped the training squadron, the details of the rigging disappeared from view and the ship's lights gleamed forth brilliantly. Still the shadow pressed on with majestic speed, a mile in every two seconds. It moved as swiftly as a cannon ball until it reached the observers at Vadsoe, announcing the totality of the eclipse.

Complete darkness lasted for 100 seconds. The unwonted spectacle hushed every one to silence. A few startled birds hurried past the camp.

"Although all visitors felt that the magnificent phenomena was worthy of remembrance, scientific results of all the labors were hardly anything. The light around was not greater than that of a full moon, but in the distance the mountain tops were shining brilliantly. "The manner in which the darkness lifted was almost startling in its suddenness, but the sun was still hidden in clouds."

Dr. Andrew Ainslee Common, from whose observatory the above described scene was observed, is the treasurer of the Royal Astronomical society and gold medalist for work in celestial photography.

DENSE FOGS

Greatly Interfered With the American Party's Observations.

YOKOHAMA, Aug. 11.—Word has been received that the English, American and Japanese expeditions for the purpose of observing the eclipse at Akkeshi on the island of Yezo, the most northerly island of the Japanese group, has proved a failure, owing to the dense fog prevailing at that place, and no observations were taken. The members of the American expedition consisted of Professor and Mrs. David R. Todd of Amherst college, Mr. and Mrs. Arthur Curtiss James, Chief Engineer John Pemberton of the United States navy, W. P. Gerrish of Harvard university, E. A. Thompson, instrument maker of Amherst; Professor Schaebelee of the Lick observatory and others. The expedition had a very elaborate and expensive outfit of lenses and photographic cameras with a patent device to regulate the exposure of the plates from which great things were hoped.

Partially Successful.

NEW YORK, Aug. 11.—A special dispatch was received in this city from Mr. Arthur Curtiss James of the yacht Coronet from Miyaneshta, Japan, which reads as follows: "Eclipse observations only partially successful."

Eclipse Photographed.

COPENHAGEN, Aug. 11.—Successful photographs of the eclipse of the sun were taken at Bredvig on Skjerstad Fiord.

A Success There.

BODOE, Norway, Aug. 11.—The weather was clear and fine and the eclipse of the sun was well observed.

LYNCHERS FOILED

By a Key Catching in a Lock—Bullets Didn't Reach.

GLASGOW, Ky., Aug. 11.—An unsuccessful attempt was made Sunday morning to take Nick Ray from the Edmonton jail and lynch him. Ray, it will be remembered, on the 4th of last month, at Edmonton, shot down in cold blood and killed Attorney Albert Scott of Glasgow. He was indicted by the grand jury of the Medcalf circuit court, and afterward secured a change of venue to Monroe county, being committed to jail in the meantime without bail by Circuit Judge Wallace Jones. A mob of about 20 surrounded the jail, and three men succeeded in opening all of the jail doors until they reached Ray's cell, and here they got the key fastened in the lock and couldn't get the door open. Seeing Ray through the small grating in the door, they opened fire upon him, but although a number of shots were fired none took effect. Ray claims to have recognized in one of the three men who tried to effect an entrance to his cell Tyler Scott, a brother of the man he killed. He saved himself by crouching in the corner of his cell next to the door, so that men outside could not bring their pistols to bear upon him.

Fort Wayne Flooded.

FORT WAYNE, Aug. 11.—At 5 o'clock

last night Fort Wayne was visited by a veritable cloudburst. Rain fell in torrents for half an hour and, it is said, was the heaviest rainfall in 21 years. Streets were overflowed and cellars in all parts of the town flooded. There was an electrical storm in the midst of the torrents of rain, and lightning struck in several places, but did little damage. Mrs. Fred Kayser and Mrs. Will Leech were prostrated by a shock. Mrs. Kayser has lost her power of speech.

SWELTERING BUT JOLLY

Crowds of Wheelmen Pour Into Louisville For the Annual Meet.

LOUISVILLE, Aug. 11.—Hundreds of wheelmen have come to Louisville, some by rail and some by wheel, all sweltering, but jolly. All the racing men of any note are here, all the officers of the L. A. W. and crowds of members, and the 17th annual meet is no longer a matter of expectation. The day was passed quietly, there being little business of the pleasure seeking variety, though there was enough of the business of getting ready and preparing for the events that are to come. The information bureaus have been more than busy and these, with the registration headquarters and Steward Maxwell's punch bowl, are the centers of attraction. It was too hot for any long runs, and aside from the headquarters, Fountain Ferry park, with its shade and breezes, was the center of attraction for the visiting wheelmen.

The heat has not interfered with the training work of the racers and their trials were watched all day by crowds of eager wheelmen and women. All the cracks were out, and some creditable work was done. While the meet began yesterday, it will not be until Wednesday that the really important part of the program commences. Then the races begin and the annual meeting of the Kentucky division of the league will be held. These are the two most important features of the week. The different means of entertainment that have been provided for the visitors will, of course, be attended by large numbers of wheelmen, but they will be simply entertained, while the other events have an interest all over the country.

A large party of wheelmen started for the track at 4 o'clock yesterday afternoon when the first run of the meet was given. The run was under the direction of the members of the Meet club. Last night the first smoker was held at the track. It was a stag affair and was in the nature of a reunion of the older members of the league whose acquaintances were renewed and preparations made for the enjoyment of the events of the week.

The grounds were crowded all evening. The old timers are familiar with the pleasures to be enjoyed at Fountain Ferry. To the new comers "the wheelman's heaven" was a revelation.

CABLES BREAK.

Giant Wave Lifts a Caisson at the Brooklyn Navyyard Dock.

BROOKLYN, Aug. 11.—An accident at the Brooklyn navyyard which caused upward of \$100,000 damage, for which some one will have to be held responsible, occurred there Sunday night. The scene of the catastrophe was the timber dry dock built about seven years ago. The dock is 400 feet long, 65 feet wide, and had a depth of 27 feet. It was about 7:30 p. m. Work was over for the day, and so far as can be learned no one was present when the accident occurred.

The officers of the yard were extremely reticent when asked for an explanation of the trouble, but so far as could be learned, a wave caused by a passing steamer, which forced itself beneath the heavy caisson at the mouth of the dry dock, capsized it, throwing it into the dock and allowing the water to rush in, is the solution. The dock was nearly empty at the time, and the force of the water rushing in caused the moorings of the torpedo boat Ericsson to snap, hurling it against the end of the dock. About 12 feet of the bow of the Ericsson was stove in, and the stern of the boat badly damaged.

The captain's launch, tied up near by, was also torn from her moorings and carried by the force of the water into the dock, where she is now completely submerged. The monitors Puritan and Terror also broke their cables, but were not seriously injured.

The report that several men had been drowned proved upon investigation to be untrue. A large pile-driver, together with a scow loaded with stone was also carried into the dock.

The caisson, which is made of steel, was at the time having its stone and water ballast removed, with a view of having it replaced by cement, and on this account had become lighter, allowing the wave to lift it. A court of inquiry will probably sift the matter.

MURDERED.

Secretary of the National Silver Committee Found Dead in Washington.

WASHINGTON, Aug. 11.—A. W. Pile of California, secretary of the national Silver committee was found dead yesterday under circumstances which lead to a suspicion of foul play. He had been missing since last Thursday. His body was found under the Aqueduct bridge. When last seen he had considerable money on his person, but the money was missing when the body was discovered. A silver watch, however, had not been disturbed. There is no evidence of suicide. Mr. Pile was the son of ex-Congressman Pile of California.

WASHINGTON, Aug. 11.—Yesterday's statement of the condition of the treasury shows: Available cash balance, \$250,302,203; gold reserve, \$108,466,901.

MISTAKE OF SIGNALS.

Fatal Collision on the Toledo and Ohio Central.

BOTH ENGINES BADLY WRECKED.

Engineer Vance Instantly Killed and Two Others Receive Probably Fatal Injuries. Fire Fiends Get in Their Work at Athens. Parade Abandoned—Died of Lockjaw. Other Ohio News.

COLUMBUS, O., Aug. 11.—The Toledo and Ohio Central passenger train, due to arrive here at 9:30 last night from the north, collided with a yard engine hauling a cut of cars at the Sandusky street crossing. Engineer Charles Vance of the yard engine, whose home is in Keaton, was instantly killed. Engineer C. E. Cullison of the passenger, who lives in this city, is so badly cut and bruised that fears are entertained for his recovery. William Sinclair, fireman of the passenger, whose home is in Columbus, had one leg cut off and sustained other injuries, probably fatal. Brakeman Belatt of the yard crew was also injured.

Fireman Bennett of the yard engine saved himself by jumping. The passengers on the incoming train were badly shaken up, but none of them hurt so far as reported. The engines were both badly wrecked. The responsibility for the accident is not definitely determined, but it is supposed to have been caused by some mistake of the signals.

FIRE FIENDS

Played the Deuce With This Man's Property—Incendiary at Athens.

ATHENS, O., Aug. 11.—The fire fiend got in his work here yesterday. Fire was set to the new dwelling of Dick Laird and the flames soon spread to his other house on the lot east. James Osmond's house caught fire and burned completely, as did Laird's, also. About the same time fire was set to Dick Laird's saloon and restaurant on Main street. The incendiary entered the saloon from the rear window and bored a hole with an augur in 18 whisky barrels and the liquid flooded the floor. The heat from the flames was intense. The fire department worked well and were able to confine the flames through the one building, although those adjoining were considerably damaged by the heat and water.

Parade Abandoned.

COLUMBUS, O., Aug. 11.—Hon. W. S. Matthews, secretary of the Republican state committee, says that the idea of having a parade in connection with the opening meeting next Saturday has been practically abandoned, owing to the continued extreme hot weather. The meeting will be held under a tent on East Broad street, near Fifth. Governor Bushnell will preside at the afternoon meeting and Lieutenant Governor Asa W. Jones will preside at the night meeting.

For a Burglar and Thief.

COLUMBUS, O., Aug. 11.—Governor Bushnell honored two requisitions yesterday. One was from the governor of Illinois for E. A. Creed, under arrest at Toledo for stealing a bicycle. The other was from the governor of Massachusetts for John J. Lynch, under arrest at Painesville and wanted for burglary and larceny.

Died of Lockjaw.

CHILLICOTHE, O., Aug. 11.—Mrs. Matilda Phillips, a prominent lady, died at noon of lockjaw. She fell from a ladder a week ago and broke her right arm. Lockjaw set in yesterday and caused her death. She was an aunt of Dan Friend, a pitcher of the Chicago League team.

Greeted the Mourners.

DELPHOS, O., Aug. 11.—A confusion of names brought eastern relatives to this city to attend the funeral of Frank Davis, but the mourners were surprised to meet the "smiling corpse" walking along the street before they reached his home.

Judge Gilmore Dead.

COLUMBUS, O., Aug. 11.—William J. Gilmore, aged 73, former judge of the supreme court of Ohio, died at his residence, 37 Monroe avenue. Judge Gilmore's death is ascribed to a general breaking down of the system, due to his advanced age.

A Tramp Killed.

COLUMBUS, O., Aug. 11.—The officials of the Big Four route in this city have received news of a wreck at Grafton in which several cars were badly demolished, one tramp killed and two injured so seriously that they can not recover.

By His Clothes.

DAYTON, O., Aug. 11.—The man who was killed at Franklin about 10 days ago has been identified as being a man by the name of Stansell of this city. His clothes led to his identification.

Buggy Company Assigns.

NELSONVILLE, O., Aug. 11.—The Reliable Buggy company, T. C. Galvin, proprietor, make an assignment yesterday. Assets and liabilities unknown. W. E. Peters of Athens assignee.

Beheaded.

POMEROY, O., Aug. 11.—Charles Clark, aged 33, prominent farmer, had his head cut off by freight train at Graham station, W. Va.

WILLIAM SIMEON SMITH.

A Former Maysvillian Who Is Famous in
 Insurance Circles Throughout
 the Land.

The Boston Beacon, in its issue of August 1st, contained a cut and complimentary sketch of Mr. William Simeon Smith, who formerly resided in Maysville, and who still has many warm friends here. The Beacon says:

The above is an excellent likeness of that big-hearted, great-minded bachelor, William Simeon Smith, actuary of the John Hancock Mutual Life Insurance Company of Boston.

The writer stole the picture months ago, for it was impossible to get one from Mr. Smith, and this brief sketch has since been picked up from those who know the man. Some day Brother Smith will realize that the true story of his twenty-five years conscientious, faithful work in the service of Massachusetts and Kentucky will serve as an inspiration to aspiring youth, and he will then sacrifice his modesty for the general good, but he has not yet come to a full realization of this, and so his work can be lightly touched upon. He was born in Sufield, Conn., fifty-seven years ago, and was educated at and graduated from Williams College, Williamstown.

For several years he was Principal of the High School at Maysville, Ky., but in 1870 he began the work which has since made him famous in insurance circles throughout the country. The Kentucky Legislature had just created an insurance department with General Gustavus Smith as Insurance Commissioner. William S. Smith was chosen deputy and served in that capacity for six years. Never "skimping," invariably accurate, the benefits of a well stored mind, possessed by a man devoted to his work, were given to the new insurance department of the Blue Grass State, and the salutary influence of the department in insurance matters to-day is due in no small measure to the accurate work of Actuary Smith twenty years ago.

For twelve months from 1876 to 1877, Mr. Smith was Assistant Actuary of the Columbia Life Insurance Company of St. Louis, and in 1877 was invited by his friend, Stephen H. Rhodes, then Massachusetts Insurance Commissioner, to accept the position of Deputy Insurance Commissioner. He accepted, succeeding Major George H. Long, who became President of the Alliance Insurance Company of Boston, and remained with the department until 1884, when he became actuary of the John Hancock.

It is curious to notice that the man who perceived Smith's worth and brought him to the department twenty years after as President of a great life insurance company invited him to the position he now holds.

Mr. Smith, as deputy, served under four insurance commissioners, Messrs. Rhodes, Clarke, Tarbox and Merrill. On the resignation of Mr. Rhodes, Governor Talbot offered the position to Mr. Smith, and on the removal of Julius L. Clarke, Governor Ben Butler again offered it to him; but Deputy Smith had no aspirations for a political appointment and each time gratefully turned it down. Beside the duties of deputy he took charge of the actual department, saving the State many thousands of dollars and bringing the actuarial department up to a state of efficiency which is not excelled by that of any insurance company in the country. Mr. Smith is an honored member of the American Institute of Actuaries and an associate of the International Congress of Actuaries. He is devoted to his work and has no time for clubs, politics or married life. He lives at the Norfolk House, and has made his home there for over twenty years.

Brilliant but unassuming, trustful as a child, but a warrior in a fight, "steel true and blade straight," William Simeon Smith adorns his profession and honors the company he serves.

The doctor may be a good old man, but even so, medical examinations and the "local applications" treatment are abhorrent to every modest woman. They are embarrassing—often useless. They should not be submitted to until everything else has been tried. In nine cases out of ten, there is no reason for them. In nine cases out of ten, the doctors in general practice isn't competent to treat female diseases. They make a branch of medicine by themselves. They are distinct from other ailments. They can be properly understood and treated only by one who has had years of actual practice and experience in this particular line. This is true of Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Dr. Pierce's Favorite Prescription, a remedy for all derangements of the reproductive organs of women, has been in actual use for more than thirty years. It cures every form of "female weakness."

A Coffee Hint.

During damp weather in the summer coffee often loses its flavor and strength. An old housekeeper says that if the quantity of coffee berries needed for breakfast be put into a bowl, covered closely, and put into the warming oven over night the flavor of the coffee will be much improved.

When Baby was sick, we gave her Castoria.
 When she was a Child, she cried for Castoria.
 When she became Miss, she clung to Castoria.
 When she had Children, she gave them Castoria.

Miss KATE BLATTERMAN will teach piano and theory of music at No. 15 West Fourth street, beginning September 7th.

ENTHUSIASTIC

Are the Democrats of Mason For
 Col. Thomas and the Chi-
 cago Ticket.

A Large and Representative Gathering at
 Monday's Convention—Everything
 Harmonious—Delegates.

The Democratic convention Monday afternoon was one of the largest held in this county for years.

It was also one of the most harmonious and most enthusiastic.

It was a representative gathering of the sturdy yeomanry of the county and the leading business and professional men of the city.

The harmony and enthusiasm that characterized the meeting indicate that the Democrats of the county will present a solid front to the enemy in November, and that always insures a victory.

The convention was called to order by County Chairman Alexander who stated the object of the meeting.

A call of the precincts by Secretary Lovel showed all precincts represented except Fern Leaf.

On motion Hon. A. P. Gooding was chosen Chairman, and Sam Stairs, Geo. W. Oldham and M. F. Marsh as Secretaries.

On motion of C. D. Newell, the Chair appointed a committee of three each on credentials, resolutions and delegates, as follows:

On credentials—C. D. Newell, Dan Perrine, Jos. F. Walton.

On resolutions—G. W. Sulser, A. E. Cole and James E. Cahill.

On delegates—E. L. Worthington, Dr. James Shackelford and James Wilson.

On motion of C. L. Sallee, all Democrats present from Fern Leaf were admitted as accredited delegates from said precinct.

The Committee on Resolutions reported the following:

Resolved, That the Democracy of Mason County in convention assembled do hereby most heartily endorse the Democratic platform adopted at Chicago, and pledge our support to it and the candidates of the party, Bryan and Sewall, for President and Vice President of the United States.

Resolved, That we pledge anew our fealty to the time honored and time tried principles of Democracy.

Resolved, That Warren LaRue Thomas is our choice for Congress from this district, and the delegates from this county to the Congressional convention are instructed to vote for him and use all honorable means to secure his nomination, and vote as a unit on all matters coming before said Congressional convention.

Geo. W. Sulser,
 J. E. Cahill,
 A. E. Cole, } Committee.

The resolutions were adopted.

The Committee on Credentials reported no contests and that the delegates reported were the regularly accredited delegates.

The report was adopted.

The Committee on Delegates reported the following:

Resolved, That the following named persons be and they are hereby appointed delegates to represent the Democracy of Mason County in the Congressional convention to be held in Maysville on Wednesday, August 12th, 1896:

A. P. Gooding, Jas. Wilson,

The report was adopted.

Colonel Thomas was invited to address the convention and responded. He spoke about ten minutes, expressing his heartfelt thanks to the Democracy of the county for the unanimous and enthusiastic endorsement they had given him in his race for Congress. Whether he won or not, he would never forget the kindness and the courtesy the people of Mason had extended him. He was confident of winning the nomination, and if the party's banner should be placed in his hands, he would leave nothing undone to carry it to victory in November. It would be his duty as well as pleasure to fight for the principles of Democracy from every stump in the district and do all in his power to insure a victory for Bryan, Sewall and the entire ticket.

Col. Thomas' remarks were enthusiastically applauded. At the conclusion of his address, the convention adjourned.

EAST LIMESTONE.

George Williams and family visited relatives near Ripley Saturday and Sunday.

The several hard and successive rains of late have placed the land in bad condition.

A protracted meeting begins at Stone Lick August 9th. The pastor Rev. Tolle will be ably assisted by Rev. Trotter, of Maysville.

Albert Kidder moved Thursday to the handsome residence he recently purchased from the Hall Brothers in the Hall plat, sixth ward.

The miniature cyclone that visited this neighborhood August 1st did considerable damage to the corn by blowing it down. Much of it is broken off.

Patsy, the bright little daughter of Mr. and Mrs. Henry Wise, of Forest avenue, but formerly of this place, is seriously ill with inflammation of the stomach.

Richard C. Williams, who excavated to the depth of several feet a natural depression on his farm last year during the drouth, now has a miniature lake, and a scarcity of stock water on this already well-watered farm is a thing of the past.

John Bradford, who was seriously cut across the right hand and permanently disabled while in the act of peace-making during a scrap at an ice cream supper near the fair grounds recently, is said to be getting along as well as could be expected. Mr. Bradford, who is a quite and industrious young man, has the sympathy of the community in his serious misfortune.

While Sweet's threshing machine was passing through a potato patch on Mr. Gilp's farm it is told by some of the most susceptible in the crowd that this business always attracts, that they noticed the broad tires slipping and sliding, and on examination, thinking probably they would find gold, found it to be potatoes. Doubtless without jesting Mr. Gilp has the champion potatoes, as they are as large as quart cups.

The people here are becoming enthusiastic over free silver, and a Bryan Club will soon be organized at Limestone. Many regard Bryan's nomination as a Providential intervention at that late hour, and his speech in which he said: "You shall not press down upon labor this crown of thorns," "You shall not crucify mankind upon a cross of gold," a divine inspiration and the grandest thing ever said.

Bud Sweet, assisted by Seal Stewart and Martin Harover, of Brown County, has returned after a three weeks tour with his threshing machine. Mr. Sweet reports the wheat turning out remarkably well, but the acreage very light. He threshed a crop of wheat, oats and rye for Richard C. Williams Friday and reports the wheat, which is of the Russian prolific variety, to be the driest and cleanest of any he has threshed during the season and finely adapted for seed, of which he purchased a lot for that purpose for his own use. Mr. Stewart, the famous Brown County songster, favored their hosts at Mt. Welcome during their two nights stay with some of his German and Scotch ballads.

Sure to Win.

The people recognize and appreciate real merit. That is why Hood's Sarsaparilla has the largest sales in the world. Merit in medicine means the power to cure. Hood's Sarsaparilla cures—absolutely, permanently cures. It is the one true blood purifier. Its superior merit is an established fact, and merit wins.

Just received, a fresh-mined barge of the celebrated Raymond Coal, the best semi-cannel coal ever sold in this market. Its merit is attested by the fact that others have tried to handle it but could not buy it, and another coal is sold by a similar name, but it cannot be counterfeited, and is sold only by J. H. Dodson.

The Game With the Louisvilles Monday Resulted In a Tie.

The Locals Outplayed the Leaguers at Most All Points—Newton's Fine Pitching.

The game of ball Monday afternoon with the Louisvilles resulted in a tie.

Had the locals put up an average game, the tailenders of the big league would have never reached scoring territory.

Tanner, Maysville's captain and second baseman, was sick, and he ought never to have gone into the game. He hit the first ball pitched, and it landed under the right field fence. Before McCreery could reach it and return it, Tanner had scored. The run and the heat coupled with his sickness seemed to knock him out completely, and in the second inning he had three costly errors in succession, these with one hit and an out giving the visitors three of their runs.

Tanner retired at the close of the second inning Sutherland going to second, Cox to first and Wadsworth resuming his old place in center.

It was Wadsworth's first game since he was injured a few weeks ago, and he celebrated his return by doing some sensational fielding and also some fine work with the stick, getting a single and a two-bagger out of three times at the bat. Henry made several great catches after hard runs, accepting every chance.

Honeyman, the local's hustling little left fielder, also made several great catches. Once after a hard run his feet slipped from under just as he got the ball, but he pluckily held on to it, and was roundly cheered.

Newton's pitching was the feature of the game. He had the leaguers at his mercy, striking out seven of them and holding them down to six scattered singles. He easily carried off the honors, and at the bat rapped out a three-bagger in the ninth, scoring the tie run later on Wadsworth's two-bagger. His hit was the longest in the game, and was good for a home run, had the first baseman not interfered by trying to trip him.

Cox, Lautenbach and Shepard put up a good game, but some of the others had an off day, as the score shows. Cox's two-bagger in the seventh scored two runs.

The visitors put up a poor game, and if this is a sample of their work it is not surprising that they are the tail-enders in the big league. Two of their men were guilty of some "dirty" ball playing, —Dexter and Cassidy.

The visitors quit at the close of the first half of the ninth, although they had plenty of time to finish the game and catch their train.

PARKER'S GALLERY

The Scene of a Lively Blaze Monday Afternoon—The Damage and Insurance.

Three young men entered Mr. J. F. Parker's gallery in the Stockton building on West Second Monday afternoon and insisted on having some tintypes taken with cigars in their mouth. They were accommodated.

After they got their pictures, they left and Mrs. Parker then stepped up to Redmond's grocery. She was gone some time, and on her return found the room in a blaze.

Before the department could get to work the operating room of the gallery was gutted by the flames. The fire was soon extinguished, without much further damage to the building.

It is thought the fire started from a cigar stump or lighted match thrown among the back grounds by the party who got the tintypes.

Mr. Parker is at Lynchburg, O., where he was called some days ago by the serious illness of his mother. Mrs. Parker places her damage at \$800, with \$400 insurance in the Phoenix, Wm. N. Howe agent.

The damage to Traxel & Smith's plumbing establishing underneath, by water, is fully covered by insurance.

Colonel Bob Lynn's Loss.

The New York correspondent of the Enquirer says: "Colonel Robert G. Lynn was standing in front of the Stewart House a few days ago and pulled out his pocketbook to accommodate a friend who had 'touched' him for a few dollars. A valuable diamond stud dropped from his purse and down between the iron bars that guard a sewer opening. That was the last of the diamond, and its loss was a sore one, as many pleasant recollections surrounded the gift of the sparkler to the doughty sporting man."

THE Y. M. C. A.

The Temporary Quarters Will be in the Cox Building—Committees Appointed Last Night and Other Business Transacted by the Directors.

The Directors of the Young Men's Christian Association of our city held their August meeting at the association hall, in the Cox Building, last evening. Mr. Henry E. Roseyear, State Secretary, who had spent the afternoon in the city, was a guest of the board.

The following members of the board were selected by Acting President, William H. Cox, to serve in the capacity of executive and finance committees:

Executive—M. F. Marsh, W. W. Ball, William Wormald.

Finance—John Duley, H. H. Collins, D. C. Hutchins, H. C. Sharp, S. M. Hall.

According to the provision of the association by-laws, the fifteen directors are to be divided into three classes, each consisting of five members to serve one, two and three years respectively. This division of the term of office was made last evening with the following result:

One Year—W. H. Cox, William Wormald, D. C. Hutchins, M. F. Marsh, H. C. Sharp.

Two Years—H. H. Collins, Sam M. Hall, Robert A. Cochran, W. R. Warder, W. W. Ball.

Three Years—J. James Wood, John Duley, I. M. Lane, James H. Hall, James T. Kackley.

The directors decided to make use of the present Y. M. C. A. room in the Cox Building, as temporary headquarters for the Association members and the General Secretary, until a permanent location has been secured by the special committee who have that matter in charge.

The Executive Committee were given authority to purchase such fittings as will be needed at present for office and general use, and in a few days General Secretary Canfield expects to be located in these temporary quarters, where he will be pleased to meet the young men and business men and all other friends of the association.

The organization of the several committees, to have charge of the different departments of the association, and all other necessary preliminary work will be pushed forward as rapidly as possible, and further announcement of definite plans decided upon by directors or committees will be made from time to time.

The Finance Committee were instructed to collect at once the subscriptions made last spring by the business men, in order that the needs of the present and immediate future may be promptly met.

Those who have generously pledged their aid to this most excellent work, will confer a favor upon the committee by sending in their contributions at their earliest convenience to the Treasurer of the association, Mr. W. W. Ball.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents per bottle at J. James Wood's drug store.

Drowned at Sixth Ward Landing.

Willy Epperson, aged about fourteen, was drowned last night at 7:30 o'clock while bathing in the river at the Sixth ward landing. Several companions were with him, but could not reach him in time to save him. He is a son of William Epperson. His body was recovered about 8 o'clock this morning.

MR. GORGER 'DISAPPEARS.

A Fear Among Friends That He Has Committed Suicide.

SHELBYVILLE, Ind., Aug. 11.—The disappearance of Mr. Frank Gorgier is exciting grave concern. For many years he was the leading meat merchant in this city. Last winter he conceived the idea that a fortune awaited him at Indianapolis, and he established a shop on Virginia avenue, which proved to be a losing venture. Then he came back here and again resumed business. Last Saturday his wife and daughter went away to visit friends. Yesterday morning he closed his shop and left the key with a neighbor, after which he disappeared, taking the train westbound. He left a note addressed to his wife, which was found upon her return this morning, saying that he had gone east, and that no one need look for him, as he did not contemplate returning. Mr. Gorgier has always been a hard working, faithful man, and his friends fear that he has committed suicide because of financial reverses. His family consists of a wife and a 10-year-old daughter.

Governors' Day.

INDIANAPOLIS, Aug. 11.—Governor Matthews has received letters from Governor Altgeld of Illinois, Governor Rich of Michigan, Governor Bushnell of Ohio and Governor Bradley of Kentucky, each promising to be here on Thursday of the state fair week, to be known as Governors' day.

Bishop O'Sullivan Dead.

MOBILE, Aug. 11.—Bishop Jeremiah O'Sullivan died last night after a lingering illness. He was born in Cork county, Ireland, in 1842, and came to America 20 years later, completing his education in Maryland. He was ordained priest by Archbishop Spaulding at Baltimore in 1868.

Cyclone at Warsaw.

WARSAW, Ind., Aug. 11.—At 4 o'clock yesterday evening a cyclone struck Winona park near here. Trees and tents were blown down. The amphitheater is a mass of ruins. Two people were injured and the assembly grounds were desolated. The money loss will reach \$10,000.

Six Killed.

COLUMBIA, Pa., Aug. 11.—Six persons were instantly killed and 15 injured, probably some fatally, by the derailling of a trolley car on the Columbia and Donegal electric road, just outside the town. The dead are Adam Froehlinger, motorman; Henry Smitu and an unknown man. Probably two of the injured may die. The place where the accident occurred is at the foot of a steep incline alongside of which runs an embankment. The car was loaded with passengers, and as it reached the edge of the incline there was no indication of impending danger. Once on the incline, however, the car began to slip, owing to wet tracks.

State Council, Junior Order.

PORTLAND, Ind., Aug. 11.—Today the state council of the Junior Order United American Mechanics, and the national council of the Daughters of America will meet in this city for their annual sessions. Delegates will attend from all parts of the state, and the local lodges are making elaborate preparations to entertain them.

ACRES OF PEOPLE

Welcome Mr. Bryan at Pittsburgh—The Crowning Ovation.

PITTSBURGH, Aug. 11.—The meeting in this city has proven a fitting capstone of the day's triumphs. It has excited the amazement of the people of Pittsburgh and the joy that it has afforded Mr. Bryan and the redoubtable silver "Dick" has manifested itself in their beaming features since they struck the city limits. The exceptionally long train on the Pennsylvania Central, which, it was almost impossible to traverse during the last 100 miles because of the numerous committees and enthusiasts who had boarded and spread themselves out over the conveniences, ran into the Pittsburgh depot at 6:50 p. m.

It was immediately surrounded by acres on acres of frantic people. When Mr. Bryan emerged from the train, in spite of the efforts of the large local committee to carry out its program, the crowd closed around him and it was a free-for-all fight from that time on for every person in the Bryan party, except Mr. and Mrs. Bryan and Mr. and Mrs. Bland. When they entered their carriages the relentless throng closed around them and seemed to bear them along at its will. Through the various streets traversed no available space could be discerned. Every foot of ground along the way was occupied by enthusiasts. When the Central hotel was reached a cordon of police was stationed at the main entrance and formed a narrow passageway leading to the staircase. No one was allowed to tread it except those who could show unmistakable credentials.

There were police on the stairs, police in the halls, police at the dining room door and everywhere else where men and women might seek to go and even at the door of Bryan's room. While Mr. and Mrs. Bryan were supping with a committee of ladies and gentlemen, the streets resounded with the continuous clamor from thousands of throats. Many marching clubs pierced the stubborn crowds amid showers of pyrotechnics, and a roar that would have rivaled Niagara's thunders.

The evening meeting had been announced to occur at 8 o'clock in the Grand Opera House and the Avenue theater, kindred halls side by side and owned by the same parties. Each hall will seat between 2,500 and 3,000, and meetings were to be held in each. Long before the hour for opening the doors, the entire street front of these structures was packed full along the entire block and after the doors had been opened and the structures were filled, the crowd outside had suffered little perceptible diminution. A corps of 100 policemen was on duty at the various entrances and in the course of the early evening there was an incipient riot in which one man was severely beaten and some of the officers had their brass buttons torn off.

When Mr. and Mrs. Bryan and members of their party rode around from the hotel and entered the first hall, both of them were packed to their full standing room capacity, and it is said that half who applied had not been admitted. The crowd lingered outside in noisy but peaceful disappointment, singing, cheering and burning red fire, and a tolerable rain that came soon after the speaking began, diminished it but little, the streets remaining full until the meetings closed.

Surveying a New Railway Line.

MUNCIE, Ind., Aug. 11.—Ten men under the direction of Charles L. Ratliff, formerly a government surveyor, commenced a preliminary survey yesterday for a railroad between this city and Richmond, after which they will survey a line from this city to either Wabash or Huntington, where connections will be made for Chicago. Mr. Ratliff can not be induced to tell anything, only that eastern capitalists are behind the project. The opinion prevails that the Pennsylvania has the enterprise in charge. Should this be true the Big Four will break its agreement not to enter Richmond, and will build into that city at once.

"Long Live Cuba."

VALENCIA, Spain, Aug. 11.—The attempts to cause riotous demonstrations against the government continue. This city yesterday was placarded with posters reading: "Long live free Cuba," "Long live the social revolution," etc. The placards were removed by the police.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
